Great Northern Equipment Becomes National Distributor For AMT Water Pumps
Products Include A Dolly-Driven Trash Pump And A Towable Trash Pump

ROGERS, MINNESOTA - December 2019: Great Northern Equipment has become a distributor for AMT Water Pumps' commercial-grade line of trash pumps.

The pumps include the dolly-driven trash pump (3994-96) and the towable trash pump (5585-H6). Both units are powered by Honda engines boasting an electric start for reliability. Both feature a silicon carbide/Viton® mechanical seal and Buna-N o-rings and check valves. Both have a max temperature of 180°F.

The dolly trash pump features a cast iron male NPT suction and 4" rotatable, discharge ports with a max solid handling up to 2". It self-primers up to 20 feet with a built-in Buna check valve. It boasts a 103 foot total head lift, 31 foot total suction head, 530 max GPM, and 90 max PSI. This unit has a wheel kit with 16" tires, base, and rail for your convenience.

The towable trash pump features a stainless steel impeller and 6" discharge ports with a max solid handling up to 3". It self-primers up to 20 feet with a built-in Buna check valve. A digital tachometer, hourmeter is installed for accuracy. This unit has a patented unique slide mechanism permitting complete service of the pump without removing hoses or removing components from the trailer. It boasts a 96 foot total head lift, 29 foot total suction head, 1,000 max GPM, and 42 max PSI. This unit is D.O.T. approved trailer with 14" wheels and 2" ball hitch for your convenience.
