

# MODEL 439

## CHAIN DRIVE

## DRYWALL LIFT

### EVERYTHING YOU NEED IN A LIFT

After 30 years of providing reliable service to professional drywallers, Panelift has developed the first drywall lift with a chain drive system. The **Model 439 Chain Drive Drywall Lift** makes drywall lifting safer, easier to do, and faster than ever.

The unique **heavy-duty chain drive system** delivers safe, long-term use, sheet after sheet and is backed by a 3-year drive train limited warranty.

The **unique torque limiter** ensures that only safe load weights are going up and damage to the machine from overloading is prevented. Expect low maintenance and long life because there are no cables or sheaves to replace.
