Great Northern Equipment Becomes National Distributor For B-Air Equipment
Products Include Air Movers, Dehumidifiers, and an Air Scrubber

ROGERS, MINNESOTA - February 2020: Great Northern Equipment has become a distributor for B-Air's line up of air movers, dehumidifiers, and air scrubber.

B-Air offers commercial and industrial air movers that are typically used in property restoration, mold remediation, and more. GNE now carries the VLO-25 Low Profile Air Mover, VP-25 Compact Air Mover, VP-33 and VP-50 Vent Air Movers, and the PB-25 Polar Bear Air Mover. CFMs range from 900 to 3,320 depending on the model. Each model features variable speeds, aerodynamic designs, and durable, rotomolded plastic housings. Each model also includes GFCI daisy-chain capabilities; this allows you to connect and stack multiple units together using only one outlet.

GNE has also added 2 Vantage Dehumidifiers to the line up. The VG1500 model features 325 CFM and the VGLR2200 model has 400 CFM. Both models are small for easy transportation and fitting in small spaces, but both also feature rotomolded polyethylene rugged housing. The electronic touch pad controls ensure that you are at the exact speeds and working temperatures you need.

Lastly, GNE has added the B-Air RA-650 Air Scrubber to the line up. This model is designed to remove airborne particles such as mold, pet dander, dust, pollen, drywall dust, and other miscellaneous debris as small as 0.3 microns. The Air Scrubber features daisy-chain capabilities to connect up to 3 units together while only using one GFCI port. The RA-650 utilizes 3 stages of filtration including a pre-filter, optional 2nd stage, and a HEPA filter. GNE also supplies additional replacement filters.

About GNE

Established over 30 years ago, GNE began distributing engines and expanded to incorporate commercial quality power equipment lines. GNE is a distributor of hardware, lawn and garden, rental, agriculture and power equipment industries. The GNE portfolio includes Brave, CEI, Dosko, Iron & Oak, Jrco, Maxim and Perma-Wrap.™
